

# Global Warming

*What does it mean for our  
water supply  
and flood risk?*

*What does it mean  
economically?*

*What does it mean for  
California?*

*What does it mean  
for the health of  
our communities?*

**What does it mean  
for our planet?**

Experts discuss these and more issues at the  
**Global Warming/Climate Change Summit**  
**FREE! OPEN TO THE PUBLIC!**

**Friday, November 9, 2007**

Events Center A and B, Santos Manuel Student Union

8 a.m. to 11:30 a.m.

## GLOBAL WARMING/CLIMATE CHANGE SUMMIT

November 9, 2007

8:00AM to 11:30AM

California State University San Bernardino

5500 University Parkway, San Bernardino CA 92407

**8:00AM-8:05AM**

**Welcome from the University**

**President Albert K. Karnig, California State University San Bernardino**

**8:05AM-8:10AM**

**Overview of the Summit and Introduction of Dr. William Patzert  
by Dr. Brett Stanley, Moderator**

*Dr. Stanley is a Professor in the Chemistry Department at CSUSB with specialization in the surface chemistry and modeling of column chromatography. He is also interested in environmental chemistry, including water quality, contamination and purification. He is a member of the Water Resources Institute's faculty advisory council.*

**8:10AM-9:00AM**

**What Does Global Warming Mean to the Planet? (It Ain't Over Yet: From Global to Local)  
Presentation by Dr. William Patzert**

*Dr. Patzert is scientist at California Institute of Technology in the NASA Jet Propulsion Laboratory (JPL). He is often called the "Prophet of California climate." He is a media favorite, sought out by reporters and seen on local and national television. Dr. Patzert's research focuses on the application of NASA satellite data to improving our understanding of our planet's climate and important environmental problems.*

**9:00AM-9:15AM**

**Questions/Comments to Dr. Patzert and Introduction of Matt Vander Sluis**

**9:15AM-9:35AM**

**What Does Global Warming Mean to California?  
Presentation by Matt Vander Sluis**

*Matt Vander Sluis is the Global Warming Project Manager for the Planning and Conservation League and the National Wildlife Foundation. For more than 30 years, PCL has fought to develop a body of environmental laws in California that is the best in the United States.*

**9:35AM-9:45AM**

**Questions/Comments to Mr. Vander Sluis and Introduction of Dr. James Dulgeroff**

**9:45-10:10AM**

**What Does Global Warming Mean Economically?  
Presentation by Dr. James Dulgeroff**

*Dr. Dulgeroff is the former Chief Economist for the Southern California Association of Governments and today teaches at CSUSB as Adjunct Faculty in both the Information & Decision Sciences and the Economics Department.*

**10:10AM-10:25AM**

**Questions/Comments to Dr. James Dulgeroff and Introduction of Penny Newman**

**10:25-10:40AM**

**What Does Global Warming Mean to the Health of our Communities?  
Presentation by Penny Newman**

*Penny Newman is the Executive Director for the Center for Community Action and Environmental Justice. Penny has earned wide recognition for her work on Environmental Justice. CCAEJ is one of the oldest and most accomplished environmental justice/health organizations in the nation.*

**10:40AM-10:50AM**

**Questions/Comments to Ms. Newman and Introduction of Ronald Stork**

**10:50AM-11:15AM**

**What Does Global Warming Mean to California's Water Supply and Flood Risk?  
Presentation by Ronald Stork**

*Ronald Stork is the Senior Policy Advocate of Friends of the River. Ron is an acknowledged national expert in flood management, federal water resources development and hydropower reform. He joined Friends of the River as Associate Conservation Director in 1987.*

**11:15AM-11:30AM**

**Questions/Comments to Ms. Newman and Wrap-up by Moderator**
